(1089) Manufacture of other food products n.e.c.

## Company Business Activities

COSELI S.A Business Corporation is a 100% private equity family company, established in 1990, in Iasi, Romania. The fields of activity of COSELI company are:

- **THE FOOD DIVISION:** is the main field of activity, based on the manufacture of flavors, essences, colorings, vanilla sugar, cream powders and pudding powders for household and industrial use in Pastry and Confectionery. The COSELI portfolio now includes more than 100 flavors designed for soft and alcoholic beverages, and the thermostable flavor varieties satisfy our clients' most demanding preferences. The rum essence takes the spotlight in our company portfolio, winning the gold medal "COSELI RUM essence" Eureka 2002 awarded at the International Salon of Inventions and Innovations in Brussels.
- **MANUFACTURE OF ANTISEPTIC PRODUCTS** for the medical field; our brand is IODOMED 10%, an iodine-based antiseptic product. It is an innovative product for the hygienic and surgical disinfection of the skin and membranes, before and after surgical interventions, and it is registered with the EUROPEAN AGENCY of biocidal products.
- **LABORATORY FOR RESEARCH** and physical-chemical testing for food products was created immediately upon commencement of activity at Coseli company, as a necessity for introducing new tested and controlled products on the market place, so as to be in line with European standards.  
The last but not the least product from our portfolio is hemp, in different forms: flour, oil, seeds and fiber. Hemp is a natural food that can offer a wide range of health benefits, the most important being: increasing the energy level, improving the circulation, strengthening the immune and nervous system, rapid recovery in case of injuries and others. Hemp protein flour is recommended for pastry, and can replace 10-20% of the amount of wheat flour in a composition. It can also be used in sauces, having a thickening effect. Hemp fibers can be consumed daily mixed in shakes, salads or bread recipes and biscuits. In the diet can be consumed simply, with water or yogurt, in the morning. Hemp seeds can be added in salads of any kind, musli, yogurt, shakes or in bakery or cakes. Hemp oil can be consumed as such or as part of gastronomic recipes or can also be used in cosmetics.

## Company Business Activities

The company was founded in 2007, with the aim of providing high-quality products and services for the specialized market in a professional way. Benefiting from a long-standing collaboration with similar companies in Europe, Easy Industry manufactures on demand products for all customers, which can be customized in one-off and large series products, as the case may be.

The company has grown rapidly, adjusting to the conditions imposed by an increasingly rigorous and ever-growing market. Easy Industry – delivers projects that are aligned to the quality standards at local, national and international level.

The diversity of the services provided by the company has developed harmoniously, with a concern for the rigorous market conditions and the various requirements of the customers.

The collaboration with Western European countries has offered the company the opportunity to constantly improve and modernize, but also to acquire cutting-edge technologies.

This has led to a high qualification of the personnel employed in the manufacturing process, who have learned to respect and ensure the quality of the products leaving the factory. Easy Industry offers high-quality products at fair prices to their customers, and this has developed the relationships with external beneficiaries from countries such as: Romania, Germany, Switzerland, France, Spain, Italy, USA, Mexico, and China.

## Company Business Activities

IMNR is a Governmental Research Institute situated in the Bucharest-Ilfov area, the most research-intensive Romanian Region, with over 50 years of expertise in non-ferrous and inorganic materials industry. Its strategic mission is focused on developing and implementing new and emerging technologies in the field of materials engineering for use of primary and secondary non-ferrous resources, obtaining of new metallic, composite and hybrid advanced materials and nanomaterials with customized design for coatings and additive manufacturing, as well as implementation of certified testing methods for physical-chemical materials characterisation. The institute's core activities are supported by different applied National and European research projects, including presently 7 Horizon 2020 and ERANET co-funded projects, contributing to improve the innovation capacity of businesses and government. IMNR is a member of: 2 National Innovative clusters MAGURELE HIGH TECH, focusing on R&D and industrial opportunities generated by the ELI-NP project, and ROHEALTH, focusing on health and bioeconomy, with a total reach of approx. 100 organizations (R&D institutes, universities, NGOs, SMEs, etc.); 3 COST NETWORKS: HERALD (MP14102) - Hooking Together European Research in Atomic Layer Deposition, CRMEXTREME (CA15012) - Replacement of Critical Raw Materials for Extreme Environmental Conditions, BIONECA (CA16122) - Biomaterials and Advanced Physical Techniques for Regenerative Cardiology and Neurology; 4 EU PLATFORMS: ETP Raw Materials, EIP Raw Nanovalue, ETP Nanomedicine, JTI Nanofutures. Also, IMNR is coordinator of the European VIRTUAL Centre for Integration of INNOVATIVE synthesis and Processing methods for SUSTAINABLE advanced Materials operating under Extreme Conditions (H2020-692216-SUPERMAT). The relation between IMNR and industrial partners is managed by the Technology Transfer Center in Advanced Materials (CTT AVANMAT), member of the Romanian Network of Innovation and Technology Transfer – ReNITT.

## Certificates (ISO...)

ISO 9001:2015; RENAR (accreditation of 2 laboratories); Technology Center (by the Romanian Ministry of Research and Innovation)

## Specifications of the interest

The R&D activity of IMNR is oriented toward satisfying SMEs needs addressing: industrial equipment, medical devices; defence, safety & security; non-conventional energy storage, metallurgy and inorganic industry. The main directions of IMNR in R&D and TECHNOLOGY TRANSFER are:

- technologies for advanced metal-based materials and their compounds;
- new chemical processes for raw and secondary materials: autoclave solubilization in controlled atmosphere, microwave processing;
- mild chemistry methods for advanced nanomaterials synthesis (oxides, composites, hybrids): hydrothermal / solvothermal, high pressure, spray drying, encapsulation and core-shell materials;
- new technologies for capitalizing advanced materials: thin film coatings and deposition (EB-PVD); electro-deposition in aqueous solutions and molten salts; hydrothermal-electrochemical deposition with on-line monitoring via RAMAN.

Romania, in southeast Europe, is mountainous in the north while the main feature in the south is the vast Danube valley. The river forms a delta as it approaches the Black Sea, which is a wildlife reserve for countless native and migratory birds.

The Romanian parliament consists of two chambers, the Senat (Senate), which has 140 members, and the Camera Deputaților (Chamber of Deputies), which has 345 members. The members of both chambers are chosen in elections held every four years.

Ethnically, the population is 90% Romanian and 7% Hungarian. The Romanian language, like a number of others in southern Europe, is directly descended from Latin, although Romania is separated from other Romance-language countries by Slav speakers. Romania has considerable natural resources – oil, natural gas, coal, iron, copper and bauxite. Metal-working, petrochemicals and mechanical engineering are the main industries.

Romanian specialities include grilled meatballs, pork stew with garlic and onions and doughnuts made with cream and cheese.

The spine-chilling tale of Dracula is based on the 15th century Romanian Count Vlad Dracul whose son was famous in wartime for impaling captured enemies. Well-known Romanians include the writer Eugene Ionesco, the gymnast Nadia Comaneci and the composer George Enesco.

Official name: Romania

Area (km<sup>2</sup>): 237,500

Population (resident inhabitants): 19,514,110 (2019, Mar.)
