

Global E-Mobility Solutions - Accelerating EV Industry in Thailand

ASEAN meets Europe: The Eastern Economic Corridor (EEC) of Thailand

Date: 24th. June 2021

Time: 10.00 hrs. Berlin time / 15.00 hrs. Bangkok Time / 16.00 hrs. Beijing Time

As the electric mobility has entered the mainstream, Thailand is ready to promote e-mobility as a core element of its strategy for inclusive and sustainable growth. The green mode of transportation is expanding to regional scale under the newly developed ASEAN low carbon energy framework. The low carbon economy model and the European Green Deal announced by the European Commission envision more linkages between future industries and green technologies and innovation.

With such objectives in mind, Thailand's Eastern Economic Corridor (EEC) has designed and implemented its Green Plan (2018-2022) focusing on, among others, e-mobility and sustainability, decarbonized and digitizing industries, smart city development, energy efficiency, etc. Various quick-win and pilot projects are already being introduced in the EEC area, which covers 21 special economic and industrial zones in three eastern provinces namely Chonburi, Rayong and Chachoengsao. Next-generation automotive is one of 12 industries being promoted in the EEC in line with an official goal of 30 percent EV usage by 2030. The shift from internal combustion towards fully electric vehicles require massive effort to build suitable ecosystem for EV manufacturing. As Thailand goes electric, the automotive supply chains are being transformed, modified and reinvented. Infrastructure for electrification, battery manufacturing, innovative technology, testing and certification – all are important components that would enable Thailand's EV industries to stay competitive and strong in the regional value chains. This international digital conference is intended to bring key stakeholders to share their insights and business experiences. Productive dialogue regarding e-mobility and new technology will enhance the opportunity for the mutually beneficial business cooperation between Europe and the ASEAN region.

The EEC will play a key role as one of mega-projects in the ASEAN region. We look forward to welcoming you to this video conference. Details for registration are attached.

RA Eberhard J. Trempe,
Director - General German Global Trade Forum Berlin
The Honorary Trade Advisor of Thailand in Germany

H.E. Nongnuth Phetcharatana,
former Ambassador of Thailand to Germany, Austria;
Special Advisor, the Eastern Economic Corridor (EEC)
Office of Thailand

Speakers

H.E. Mr. Supattanapong Punmeechaow

Deputy Prime Minister of Thailand
and Minister of Energy

“Thailand Goes Electric”

Dr. Kanit Sangsubhan

Secretary-General,
the Eastern Economic Corridor Office of Thailand

**“Building Suitable Ecosystem for EV Manufacturing
in the Eastern Economic Corridor of Thailand
(EEC)”**

Moderators

RA Eberhard J. Trepel

Director-General, German Global
Trade Forum Berlin; Chairman of
Thailand Forum Germany;
Honorary Trade Advisor of
Thailand in Germany

H.E. Nongnuth Phetcharatana

Special Advisor for Foreign
Affairs of the Eastern
Economic Corridor Office of
Thailand; former
Ambassador of Thailand to
Germany and Austria

Speakers

Panel 1 “EEC as an EV Manufacturing Hub: Opportunity and Challenge”

Moderator: Mrs. Nongnuth Phetcharatana

Dr. Carsten Krebs

Head of Government Affairs &
Communication, Volkswagen
AG– Zwickau, Saxony,
Germany

**“The Game Changer to E-
Mobility: VW’s Roadmap
towards Fully-Electric
Vehicles”**

Krisda Utamote

President of the Electric Vehicle
Association of Thailand; Director
Corporate Communications, BMW
Group Thailand

**“The Shift from ICE towards
Fully EV”**

Somphote Ahunai

CEO, Energy Absolute PCL
**“Accelerating Battery
Manufacturing, R&D and
EV Charging Station
Business”**

Pisit Rangsaritwutikul

President, Thailand
Automotive Institute

**“Transforming
Thailand’s Automotive
Supply Chains”**

Volker Blandow

Global Head of
E-Mobility, TÜV SÜD
(Thailand) Ltd.

**“Testing And Certification
Lab for EV; Deepening The
Regional Value Chains”**

Tomasz Mazur

CEO, Siemens Mobility, Co.,
Ltd. (Thailand)

**“E-Mobility in Railway
Sector”**

Panel 2 “Technology Update for Electric Mobility”

Moderator: RA Eberhard J. Trepel

H.E. Prof. Dr. Wang Gang

former Minister of Science and Technology of the People’s Republic of China; Chairman of German-China Dialogue Forum

“China’s Future Automotive Industry”

Prof. Dr. Andreas Timmermann

CEO & Chairman, Berlin Brandenburg Aerospace Alliance

“Future E-Mobility in Aviation”

Dr. Henning Heppner

President & CEO, ELO Mobility GmbH, Berlin

“Hydrogen System Solutions in Future Mobility – Bus Transportation”

Roberto Garcia Martinez

CEO and Member of the Board of Eurobattery Minerals AB, Sweden

“Battery Recycling and Raw Materials”

Simon Choi

Shenzhen Winline Co., Ltd. China

“Hardware & Software Solutions for Charging Infrastructure”

Antonin Salice-Stephan

Senate Department for Economic, Energy and Public Enterprises, State of Berlin

“Project Smart Change - Building Impactful Relations to Foster Cross - City Innovation on the Sub-National Level.”

In Zusammenarbeit mit dem Büro des EEC organisieren das German Global Trade Forum Berlin , das Thailand Forum Germany, das Royal Thai Honorary Trade Advisors to the Ministry of Commerce International Network - das Board of Investment of Thailand (BOI) Frankfurt - die Industrie- und Handelskammer Chemnitz/Zwickau - Diplomatisches Magazin & FAIReconomics by Image Network Frank Tetzl.

Vorankündigung und Einladung Oktober 2021 Deutschland - Invitation October 2021 Germany

Revolution in der Autowelt

Unter diesem Thema steht der Viertel-Jahrhundert-Jubiläumskongress der IHK Chemnitz am 12. und 13. Oktober 2021. Gerade jetzt, in der Zeit des Umbruchs bei Elektrifizierung und Digitalisierung, ist auch die Automobilbranche von der aktuell schwierigen wirtschaftlichen Lage betroffen. Verbunden damit ist hier ebenso die weltweit eingeschränkte Lieferkette der Branche.

Hersteller und auch Zulieferer stehen schon seit einigen Jahren vor enormen Herausforderungen. Digitalisierung der Fertigung, Elektromobilität und neue Antriebe, autonomes und vernetztes Fahren revolutionieren die Autobranche. Damit dieser Strukturwandel gelingt, und damit die Automobilbranche global wettbewerbsfähig bleibt, bedarf es tiefgreifender Partnerschaften zwischen allen Beteiligten. Wo bieten sich hier noch Chancen und Alternativen? Auf einer breiten fachlichen Plattform werden diese neuen Entwicklungen im Oktober 2021 diskutiert.

[Weitere Informationen \(IHK Chemnitz\)](#)

Am ersten Kongresstag, 12. Oktober 2021, findet traditionell die AMZ Mitgliederlounge statt. AMZ-Mitglieder erhalten eine persönlich Einladung zum Netzwerktreff.
