

Head of the Mission of Ukraine
to the European Union

Brussels, June 2023

Dear Mr. Beyrer,

I appreciate a high-level cooperation of the Mission of Ukraine to the EU with BusinessEurope and your support to development of Ukraine – EU business relations, which is of particular importance taking into the account current difficult situation in Ukraine, caused by the russian full-scale military aggression against my country.

Russia failed to reach its strategic objectives of occupying Ukraine, destroying Ukraine's statehood and erasing Ukrainian identity. The pro-Ukrainian coalition in the world is stronger than ever: military, financial and political assistance from our partners only continues to grow.

We are sure of Ukraine's Victory. However, on our way towards our Victory, we still need support of our partners in mobilizing resources for economic and social stabilization of Ukraine, especially urgent needs, and further recovery.

Despite the ongoing russian aggression, Ukraine is preparing to celebrate on 24 August 2023 the Independence Day. This will be the second Independence Day, which our country will be celebrating, having the largest war, after the World War II, on its soil. As well as in the previous year, the format of the celebration will be different, given that our country is experiencing the darkest times of its history, still fighting for our Freedom and Independence.

The framework of the celebration on 24 August 2023 will be focused on promotion events, fundraising for the humanitarian and social needs.
