

ENGINE'S CHOICE

COMPANY PROFILE

HEXOL LUBE Ltd. is registered in Romania at the Commercial Registry under no. J05/1259/2011 and VAT no. RO28678527. The company's headquarter is located in Paleu, 1A Ardealului Street, Bihor.

The main activity of the company is: lubricants and chemicals blending and packaging CAEN Code - 2466.

The company's administrator is **Mr. Cristian Apolozan**

The president of the company is **Mr. Daniel Serghei Condratov**

ISO 9001 CERTIFIED

The **ISO-9001** certification of **HEXOL LUBE S.R.L.** is another confirmation that we are doing our professional activities with motivation and dedication.

HISTORY

In 1998, Hexol products started to be imported in Romania from the Canadian branch. The increase of sales and a good development of the Romanian market determined, in August 2001, beside the imported products, the beginning of production in Romania for motor oils, industrial lubricants, universal greases and automotive chemicals, all under the HEXOL license/brand.

In 2002, local production developed and diversified as a result of the new blending and packaging facility. In the fall of the same year, assimilating the blending technology, **Hexol Lubricants** increased the production of automotive (engine and transmission) and industrial oils (hydraulic, compressor, turbine, soluble, etc.).

In 2003, after the expansion of our facility, adding new blending and packaging equipment, we started production and packaging of automotive lubricants in different shapes and volumes and PET bottles, as well as special industrial lubricants - metalworking, heat transfer, sideways, etc.

Starting in 2011, our company began to sell the product range outside the Romanian borders, first in Bulgaria and in 2012 Hungary, then later Croatia.

In 2015, we created our export department, then approached and opened new markets in the Balkans, in countries like Slovenia and Serbia.

As a result of this new departments activity, today, **Hexol** products are available on the following markets: Bosnia-Herzegovina, Bulgaria, Cyprus, Croatia, Macedonia, Malta, Moldova, Romania, Russia, Ukraine, Hungary, Serbia and Slovenia.

All sales are organized through local distributors. We believe that knowing the specific of the local market, they are the ones who have the best perspective of how selling process occurs in their local market.

The potential is still huge.

The production facilities are strategically located close to the NW Romanian border, a connection point with Central and Western Europe, allowing us to have almost 10 countries at distances of under 700 km around the plant.

PRODUCTION

In 2011, we started a very successful collaboration with **Stihl Romania**, producing private label chain oil for the Romanian market. Due to very good cooperation, in 2013, **Stihl Germany** approved new countries and we extended the collaboration with **Stihl Greece** and **Stihl Hungary**. We are in the process of negotiation to start packaging new products and to expand to other countries.

Today, the plant located near Oradea has a blending capacity of well over 10 000 MT of lubricants and chemicals. The facility is endowed with two bottling lines (different bottle capacities), feed regulators, labeling, ink-jet printing and shrinking foil packaging machines. Almost 50% of the blending capacity could be packaged in small volume bottles (0.5L - 4L), the rest of the production being intended to accommodate large industrial packages (10L - 1 000 L).

The PET and HDPE bottles are manufactured in different customized shapes, in our own facility.

We have a good variety of packages - 0.45L, 0.5L, 0.6L, 0.9L, 1L, 3L, 4L, 5L, 10L, 20L, 60L, 208 L and 1 000L.

The chemical analysis is performed in our own laboratory, equipped with digital, high performance equipment: Canon, Tanaka, Talassi, Herschel, Koehler and Grabner instruments, quality control is done by our own specialists.

PRODUCTS

HEXOL's portfolio:

- **HEXOL lubricants**
- **HEXOL greases**
- **HEXOL automotive chemicals**

The 2015 launch of the Hexol® Standard product range marked the starting point of a more complex process of renewing **Hexol**®' image and portfolio.

Due to the positive reaction and the success of the new Standard product range in 2015, on both domestic and international markets, **Hexol**® will continue updating and integrating all the other Hexol® products within the new company image.

This process accompanies the development of new products in the existing series and the extension of the Synline series with new premium products, levelled with the most demanding quality and performance standards of the moment.

Considered a producer of high quality lubricants and chemicals, we continuously develop new products and packages, striving to grow our sales and profitability through a competitive management team, new products, new customers and new territories.

** Note: the following list does not contain all Hexol products and packages*

A. HEXOL AUTOMOTIVE

1. **HEXOL SYNLINER SERIES LUBRICANTS** - are new generation automotive multigrade high quality oils (API-SN, SM, CJ-4, GL-5), dedicated to high performance engines.

- Hexol SYNLINER UltraDiesel DPF SAE 5W30 • API CF/SN • ACEA C3 • VW 504.00/507.00
- Hexol SYNLINER UltraDiesel DPF SAE 5W40 • API CF/SN • ACEA C3 • VW 502.00/505.00/505.01
- Hexol SYNLINER SprintPlus SAE 5W40 • API SN/CF • ACEA A3/B4 • VW 502.00/505.00
- Hexol SYNLINER Sprint SAE 10W40 • API SJ/CF • ACEA A3/B4 • VW 501.1
- Hexol SYNLINER SuperDiesel SAE 10W40
 - API CI-4/SL • ACEA A3/B4 • MB 228.3 229.1 235.28
- Hexol SYNLINER SuperTruck SAE 10W40
 - API CI-4/SL • ACEA A3/B4 • MAN M 3275
- Hexol SYNLINER UltraTruck SAE 10W40
 - API CJ-4/SM • ACEA E9-12 • MAN M 3575
- Hexol SYNLINER UltraTruck SAE 15W40
 - API CJ-4/SM • ACEA E9-12 • MAN M 3575
- Hexol SYNLINER 4T MotoSprint SAE 10W40
 - API SJ/CF • ACEA A3/B4
- Hexol SYNLINER Torsion SAE 75W90
 - API GL-5
- Hexol SYNLINER Torsion SAE 75W80
 - API GL-5

2. HEXOL PREMIUM SERIES LUBRICANTS

- **Hexol SuperDiesel SAE 15W40**
 - API CI-4/SL • ACEA A3/B4
- **Hexol TurboDiesel SAE 10W40**
 - API CF/SJ • ACEA A3/B4 • VW 501.1
- **Hexol TurboDiesel SAE 15W40**
 - API CF/SJ • ACEA A3/B4 • VW 501.1
- **Hexol Sprint SAE 10W30** • API SF/CD
- **Hexol Sprint SAE 15W40** • API SF/CC
- **Hexol Sprint SAE 20W50** • API SF/CC
- **Hexol Sprint 2T** • API TC
- **Hexol SuperTruck SAE 15W40**
 - API CI-4/SL • ACEA A3/B4
- **Hexol Moto&Garden 10W30** • API SF/CD
- **Hexol 2T Moto&Garden** • API TC • JASO
- **Hexol Torsion 80W90** • API GL-5
- **Hexol Torsion ATF** • Dexron III G

3. HEXOL STANDARD SERIES LUBRICANTS

- Hexol Standard SAE W30 • API CC
- Hexol Standard SAE W40 • API CC
- Hexol Standard SAE W50 • API CC
- Hexol Standard SAE15W40 • API CC/SC
- Hexol Standard SAE 20W50 • API SC/CC
- Hexol Standard SAE 20W40 • API SC/CC
- Hexol Standard STOU 10W30 • API CG-4/SF
- Hexol Standard UTTO SAE 80W • API GL-4
- Hexol Standard HA46 • ISO-L-HL, DIN 51524-1
- Hexol Standard T75 • API GL-2
- Hexol Standard T90 • API GL-2 • API GL-5
- Hexol Standard T140 • API GL-2
- Hexol Standard 80W90 • API GL-4
- Hexol Standard 2T
- Hexol Standard 2T ECO
- Hexol ATF • Dexron II D
- Hexol ATF Universal • GM Type A
- Hexol Standard Chain Oil

B. HEXOL GREASES

HEXOL GREASES are high quality products formulated for a wide range of automotive, agricultural and industrial applications.

- **Hexol LiEP2 Blue LongLife** • ISO 6473-9 • L-X CDEB 2 • NLGI-2 • DIN 51502 • KP2N-30
- **Hexol LiEP2 Supreme** • ISO 6743-9 • L-X CCEB 2 • NLGI-2
- **Hexol Li2 Standard** • ISO 6743-9 • L-X BAEA 2 • NLGI-2
- **Hexol CaG2 Optimum** • ISO 6743-9 • L-X BAHA 2 • NLGI-2
- **Hexol Ca3 Premium** • ISO 6743-9 • NLGI-3
- **Hexol Ca2** • ISO 6743-9 • L-X BAEA 2 • NLGI-2
- **Hexol LiEP 00** • ISO 6743-9 • L-X CCEB 00 • NLGI-00

C. HEXOL INDUSTRIAL LINE

All lubricants are quality products manufactured under Hexol license.

The raw materials and additives are purchased from well-known market leaders as Lubrizol.

- Hexol STOU 10W30 • API CG-4/SF
- Hexol UTTO SAE 80W • API GL-4
- Hexol I 22/32/46/68/100 • DIN 51501 • ISO-L-AN • DIN 51517-1 (C)
- Hexol H 22/32/46/68/100 • ISO-HH
- Hexol K 22/32/46/68/100 • DIN 51506 (VB VC) • DIN 51517-1 (C)
- Hexol L 22/32/46/68/100 • DIN 51501 • ISO-L-AN • DIN 51517-1 (C)
- Hexol HA 22/32/46/68/100 • ISO-L-HM • DIN 51524 PART1
- Hexol HV 32/46/68 • ISO-L-HV • DIN 51524-3 (HVLP)
- Hexol AW-EP 22/32/46/68/100 • ISO-L-HM • DIN 51524 PART2
- Hexol AW-HLPD 32/46/68 • ISO-L-HM • DIN 51524-2 (HLPD)
- Hexol KA 22/32/46/68/100/150/220/320 • ISO-L-DAA • DIN 51506
- Hexol LA 22/32/46/68/100/150 • DIN 51524-1 • DIN 51506 VBL
- Hexol TBA 32/46/68 • DIN 51515-1 • DIN 51515-2
- Hexol TIN 68/100/150/220/320 • ISO-L-CKD
- Hexol BK 22/32/46/68 • ISO-L-AN
- Hexol GA 32/46/68/100/220 • ISO-L-GA
- Hexol Soluble GP XL
- Hexol MET F, NF, FS 32/46/68/100
- Hexol AR 2296, AR 111, AR 165AL
- Hexol HT, TT 32/46/68/100

These products can be delivered in 1 000L IBC (bulk).

D. HEXOL AUTO CHEMICALS

Hexol Chemicals are high performance products used to clean and maintain the engine and the entire vehicle.

- Hexol G12 Alupro Concentrated Antifreeze • VW G-12 SAR J1034 ASTM D3306
- Hexol Universal Concentrated Antifreeze • ASTM D3306
- Hexol Universal Diluted Antifreeze
- Hexol No Bugs Diluted Summer Windshield Washer
- Hexol Starlight Super-concentrated Winter Windshield Washer
- Hexol Starlight Concentrated Winter Windshield Washer
- Hexol DOT3 Brake Fluid • SAE J1703 FMV 5516 CMV
- Hexol DOT4 Brake Fluid • SAE J1703 FMV 5516 CMV
- Hexol HexBlue • DIN 70070 ISO 22241-1 (a non-toxic aqueous urea solution used to chemically reduce Oxides of Nitrogen [NO] emission from heavy-duty diesel power vehicles Euro IV, V and VI)

These products can be delivered in 1 000L IBC (bulk).

E. HEXOL WASHLINE

- Hexol Active Foam (Premier Eco Soft, Power Foam, SuperTruck)
- Hexol Soluble Wax
- Hexol Interior Cleaner
- Hexol Leather Cleaner and Conditioner
- Hexol Rim Cleaner
- Hexol Cockpit Silicone
- Hexol Hand Cleaner
