Water Innovation **New!**

Showcase Your Latest Water Solutions

Expand Your Reach in Asia's High Water-Demand Industries

ORGANIZER | Taiwan External Trade Development Council

A Defining Moment for Asia's Water Market

Global competition and shifting supply chains are driving higher standards for water management across industries from semiconductors and steel to chemicals, food, and textiles.

The global industrial water treatment market is expected to grow from USD 18.298 billion in 2025 to USD 24.524 billion by 2030, with a 6.3 percent CAGR, highlighting water management as a key factor in industrial competitiveness and resilience.

Co-located with Energy Taiwan and Net-Zero Taiwan, TIWW 2026 provides a comprehensive platform for showcasing clean water technologies and creating cross-industry collaboration. Join TIWW 2026 to connect directly with decision-makers from Asia's high water-consuming industries and capture emerging opportunities!

Tap into Asia's High-Growth Markets

Unlock Cross-Industry Opportunities

Engage with Key Buyers & Decision Makers

Stay Ahead of Market Demand in Asia

Secure Your Space at TIWW 2026 and Unlock New Business Opportunities
